

DPH-120S Broadband Internet Telephone Installation Guide

WELCOME

Thank you for purchasing the D-Link DPH-120S Broadband Internet Telephone with MyNetFone Service bundle.

The DPH-120S offers users following features:

- Significant savings on telephone charges.
- FREE included start up credit.
- FREE calls to other MyNetFone users.
- Simple plug and play operation.
- Simultaneous voice and data communication.
- Fully featured telephone.
- Connects with home or office IP networks.

This guide covers installation of the DPH-120S in typical home and office IP network scenarios, as well as useful information in order to make the most of your MyNetFone broadband telephone service.

MINIMUM SYSTEM REQUIREMENTS

Before installing the DPH-120S, please make sure you have the following:

- Broadband Internet service (256/64 Kbps minimum, 512/128 Kbps or higher recommended).
- Broadband Ethernet modem and router.

INSTALLATION WITH EXISTING NETWORK

This section covers DPH-120S installation where there is a spare Ethernet network port available and DHCP is used for IP address allocation.

If you are using static IP address allocation, please refer to the section 6.4 in the *Quick User Guide* located on the included CD-ROM.

STEP 1: CONNECTING THE DPH-120S

- Connect the DPH-120S handpiece to the base, using the handpiece cable provided.
- Connect the LAN port on the DPH-120S to a spare Ethernet network port on your switch, hub, or router, using the Ethernet cable provided.
- Connect the DPH-120S to a power outlet, using the power adapter provided.

NOTE: Wait at least 30 seconds for the DPH-120S to start up.

STEP 2: PLACING A CALL

- Lift the handpiece or press the speaker button.
- Dial the destination number.

NOTE: You may need to enter the STD area code prefix when dialling. Please register your service (step 3) to set your local call zone.

STEP 3: MYNETFONE REGISTRATION

- Using your web browser, go to the following address:
<http://www.mynetfone.com.au/register/>

- Follow the instructions to set up your account. You will be required to provide the following information:

- MyNetFone number and password, located on the bottom of the DPH-120S.
- Your name and contact information.
- Select your MyNetFone service plan.
- Select your local call zone.

MYNETFONE ONLINE

Don't forget to visit our real time accounts portal. You can check your account balance, access your call records and add credit to your account from the convenience of a web page.

Follow the *My Account* link at:

<http://www.mynetfone.com.au/>

SERVICE NUMBERS

Below are some useful numbers you can call from your MyNetFone anytime:

121	-	Voicemail collection and setup
151	-	Account balance and recharge
181	-	Customer Care Centre

DPH-120S Broadband Internet Telephone Installation Guide

INSTALLATION WITH SINGLE COMPUTER

This section covers DPH-120S installation with a single computer where DHCP is used for IP address allocation, i.e. Installation where there is not a spare Ethernet network port.

If you are using static IP address allocation, please refer to the section 6.4 in the *Quick User Guide* located on the included CD-ROM.

STEP 1: CONNECTING THE DPH-120S

- Connect the DPH-120S handpiece to the base, using the handpiece cable provided.
- Disconnect the Ethernet cable from your computer and plug it into the LAN port on the DPH-120S.
- Connect the PC port on the DPH-120S to your computer, using the Ethernet cable provided.
- Connect the DPH-120S to a power outlet, using the power adapter provided.

NOTE: Wait at least 30 seconds for the DPH-120S to start up.

STEP 2: PLACING A CALL

- Lift the handpiece or press the speaker button.
- Dial the destination number.

NOTE: You may need to enter the STD area code prefix when dialling. Please register your service (step 3) to set your local call zone.

STEP 3: MYNETFONE REGISTRATION

- Using your web browser, go to the following address:
<http://www.mynetfone.com.au/register/>
- Follow the instructions to set up your account. You will be required to provide the following information:
 - MyNetFone number and password, located on the bottom of the DPH-120S.
 - Your name and contact information.
 - Select your MyNetFone service plan.
 - Select your local call zone.
